Research offer

Brief description of the department (key research facilities, infrastructure, equipment)

(up to 1000 characters)

Our Department is a part of the Institute of Entrepreneurship at the Faculty of Management and Social Communication of Jagiellonian University. Department is run and developed by internationally experienced team of academics with a nourishing support from cooperating business practitioners. We continuously develop our research potential by conducting basic research projects financed by the National Science Centre of Poland, and applied projects performed with students and run in cooperation with business partners, local governments, international institutions. As a part of the Institute of Entrepreneurship and the Faculty of Management and Social Communication our Department has a permanent access to broad scientific databases, professional research software for data storage and analysis, technical equipment for teleconferencing, work spaces for team work, presentations and conferences.

Research field

(up to 500 characters)

Our research activities focus on the development of various forms of entrepreneurship, i.e. individual and organizational, commercial and social, as well as on the content, course and determinants of the innovation process, which embraces creation and application of new product and processes as well as management methods that stimulate entrepreneurial behavior and organizational development.

The proposed research/project description

(up to 1000 characters)

Research avenues explored by our team:

- Strategic entrepreneurship – i.e. logic and determinants of the entrepreneurial process, impact of the innovation activity on the competitiveness of SMEs
- International entrepreneurship – i.e. international entrepreneurial orientation, impact of innovativeness on internalization of enterprises
- Public policy for stimulating entrepreneurship – i.e. enterprise and innovation support system, entrepreneurial clusters
- Organizational and social entrepreneurship – i.e. specificity and determinants of social enterprise development
